

# MOBILE SALES SOLUTION

Powerful Data At Your Fingertips on Your Favorite Mobile Device

Our mobile sales solution gives mobile sales, merchandisers, and delivery drivers the key sales tools they need combined with the ease and convenience of a consumer device. Our device agnostic solution design ensures you can select the form factor specific to the user needs. This application helps ensure that your mobile users will know where to go, which products are required, and pricing and promotions details needed to maximize the sale as well as the customer experience.

## ENHANCE YOUR MOBILE WORKFORCE EFFICIENCY

- Runs on iOS, Android or Windows operating systems (phone, tablet or “phablet”)
- Configurable alerts to ensure visibility to potential promotions or low inventory
- Intuitive design provides ROI with limited training and immediate user adoption
- Gives you the option of running powerful presales, van-sales, survey, or delivery application functionality on industrial rugged, or lower-cost consumer devices
- Comprehensive functionality: pre-sales, delivery, survey, or van-sales in one solution
