

**Role:** Senior Developer

**Industry Type:** IT Services and Consulting

**Experience:** 5+ Years

**Employment Type:** Full time, Permanent

**Location:** South Africa

---

### **Role Summary:**

We are looking for a full-time SQL/.Net Senior Developer with 5+ years of experience to join our core developers' team in South Africa.

### **Location:**

As this is a remote role, we will consider applicants from all over South Africa as you will be comfortably set up to work from anywhere in the country. However, in-office working is available to applicants as needed.

### **Desired Candidate profile:**

The ideal candidate needs to have a passion for .Net & Database and good SQL Server queries, stored procedures, and SSRS reporting skills. They should be good communicators and problem solvers to adapt quickly to different environments. They need to understand the business requirements with minimum possible documentation, conceptualise the solution, develop and test the developed code. They need to be comfortable working remotely and under pressure to meet reporting deadlines and work independently rather than in a managed role.

### **Role Responsibilities and Functions:**

- Provide solutions both on SQL, C#, .Net, Web services, and Application environment
- Database design, ensure deliveries are robust, scalable, and operating optimally
- Create complex functions, scripts, stores procedures and triggers to the application development
- Actively contribute to the planning meetings, define business cases, unit testing, and specifications documents
- Integrate with other host environments that can be of any nature or language
- Problem Solve, troubleshoot, and translate business requirements into software applications and models

- Ensure compliance with standards and conventions in developing programs
- Maintain and manage all versions of data models for production, testing, and developing databases
- Have experience working with development teams using PMO and scrum methods

#### **Job Requirements:**

- Bachelor's degree or higher qualification in Computer Science or related field
- Warehousing, distribution centre, and Supply Chain & Logistics experience will be beneficial
- Experience with Körber Supply Chain's WMS or other similar WMS is beneficial
- 2-5 years of professional experience developing high-quality software
- Strong development experience using C# and .NET technologies
- Development experience using Web Services
- Development experience using MS SQL Server – Queries, Stored Procedures, and SSRS

#### **About iWMS:**

iWMS is a Global company and an expert in critical supply chain and eCommerce fulfilment solutions. We specialise in Körber Supply Chain warehouse management system implementation, integrations, system health checks, support, and diagnosis.

We proactively seek complex and dynamic opportunities to serve our customers' needs with WMS solutions to streamline and grow their business and supply chain operations. We are a company that prides itself on delivering excellence to all our stakeholders and becoming trusted advisors for everybody with whom we engage. At iWMS, we value hard work, attention to detail, and a willingness to learn. We have created a safe, supportive, and progressive environment and culture that has been shaped by our core values of ownership, respect, pride, passion, and candour!

#### **Why you should join the iWMS team:**

- We are a fast-growing company with an international presence.
- Work flexibility - we have mastered remote working and collaboration.
- Diversity – you will have the opportunity to work with different teams from around the globe (India, USA, Australasia, and SA).
- We commit to advancing your skills based on your personal career goals.
- You will receive strong leadership, mentorship, training, and support to ensure your success and growth.
- We are more than just a company – we are a collaborative community committed to delivering excellence and becoming trusted partners for everybody with whom we engage.

- You will be in a safe and supportive working environment built on the foundation of respect, pride, passion, ownership, and candour.
- We offer appropriate industry salaries, training, and benefits for each country.

If you are looking to further your skills, experience, and future, then iWMS is the company for you!
